Attachments: Radiological Sites in NYS.doc

Hi guys,

Here is the list from DOH, I go by the first one everyday on my way to work! I've asked Cathy to pull any info on them that we may have.

Hi Angela,

Here's a brief summary of the sites. We don't have complete information on the sites and therefore can't rank them but we have enough information to show that there is a concern and represent a potential public health threat. Let me know if you need more information.
